

MULCH FUNDRAISING PROGRAM

GROW SOME GREEN

As part of Garden-Ville's mulch fundraising program, schools and non-profit organizations can raise money while improving lawns and gardens in their local communities. Here are the details:

WHO: Schools and non-profit organizations in the Austin and San Antonio markets

WHAT: Native Mulch or Living Mulch (2 cubic foot bags)

WHEN: Products can be delivered two weeks after Garden-Ville receives orders and payment from fundraiser contact

WHERE: Products will be delivered to one centralized location (i.e. school parking lot)

WHY: By selling Garden-Ville's organic and locally-sourced mulch, students not only prove their commitment to the environment, but also encourage neighbors to become more involved in sustainable, green practices.

HOW:

1. Students seek orders of bags of Native or Living mulch (at a price determined by their main fundraiser contact). Suggested retail price of \$4 or \$5 per bag. Students give purchasers a receipt with details of their order and information regarding where to pick up their products:

ECO ACADEMY SCHOOL COST (1 truck minimum/840 bags):

- Native Mulch - \$2.00 per bag
- Living Mulch - \$3.00 per bag

NON-ECO ACADEMY SCHOOL/ORGANIZATION COST (1 truck minimum/840 bags):

- Native Mulch - \$2.50 per bag
- Living Mulch - \$3.50 per bag

2. Students submit orders along with money they've collected (cash or check) to a designated fundraiser contact.
3. Fundraiser contact places order via email and provides payment (cash, check or credit card).
4. Garden-Ville delivers the materials to designated location on a designated date.
5. Supporters pick up their mulch at designated location on the product drop-off date.
